## ABOUT BEE CLOTHINGS

Protection against terrifying bee bites while assuring the safety of bees is the primary motive behind the existence of bee clothing. With over 20 years of manufacturing expertise in preeminent beekeeping safety garments along with catering to specific manufacturing requirements of some of the leading beekeeping distributors and importers, bee clothing is a name to reckon within the field of bee safety garments and gloves.

We take pride in our efficient and dedicated quality control system, an experienced team of professionals who are quick to address client needs, reliable product source, and an ability to come up with novel ideas of work-friendly designs. Driven by an unrelenting focus on quality improvement, we believe in setting precedents for others when it comes to industry-grade produce, competitive pricing, timely shipments and dedicated customer service. We can say with utmost confidence that when you give us an opportunity to serve you, you are paving the way for an enriching mutual relationship that only grows with time and effort.

## COVERALL (VC100)

The Ventilated Coverall makes beekeeping on warmer days safe and comfortable for an apiarist. Created using three layers of foam mesh sandwiched between two layers of fine woven netting, this shrink-controlled suit makes thick yet breathable and protective clothing. It is generously cut to allow easy movement in the bee yard. The coverall includes a fully ventilated hood which can be detached or flipped at the back as per convenience.

## FEATURES

- This three-ply coverall has a layer of foam mesh sandwiched between two layers of finely knitted netting
- Three bands on the fully ventilated veil keep it away from the face
- Superior quality zippers from YKK with ring and puller
- Adjustable sleeves with Velcro seals and elasticized cuff
- Thumb loop retains the cuff in position
- Adjustable elastic waistband offers a secure fit
- Knee patches with Velcro seals for added protection
- Fasteners ensure durability and prevent any possible entry point for the bees
- Zips at leg openings for easy access to the suit
- 2 chest pockets with zippered closure, 2 waist pockets, 1 back zip pocket, 1 pocket for keeping the tools
- Size - Small - 2X Large
